**Perhaps** you dont know that we have the finest watch, clock and jewelry establishment in the middle South.

**But we have.**

**Perhaps** you dont know that we buy all our goods direct from factory and pay cash for them, getting the lowest possible prices, and that we give our customers the benefit of the close prices.

**But we do.**

**Perhaps** you already know that we have built our reputation on selling only the best of goods and that we sell no other kind.

**That's right.**

**Perhaps** you already know that we employ the very best workmen that can be had, therefore doing the finest watchwork and engraving that can be done anywhere.

**That's so, too.**

**Perhaps** you don't know that we are graduate from Three Optical Colleges, and that we can fit any eye that glasses will help. Others know it who have tried us. Suppose you try us? Examination is Free.

**Off with the Old—  
On with the New.**

Off with the old glasses of annoyance and imperfect vision. On with the new—our kind—giving ease and comfort and relief. If you must depend upon artificial aid to restore failing vision, why not have the best? That's none too good.

There is no glass and no method of fitting that can give you more ease or comfort, or satisfaction, than ours—no lenses more perfect—no frame more carefully adjusted, no prices lower for services rendered. Examination Free.

## I've been looking all over Town

And here I am again. It is a very common matter for us to hear this from customers almost daily, but it is only natural because the nobby goods we are now offering are of that class that please both the eye and pocketbook. Every article we are showing this fall is far ahead of anything we have heretofore shown, both in style and quality, and at prices, well, they have been clipped and pared till there's but a trifle left above the cost of material, and it is absolutely natural attraction which brings people to our store again and again. Remember you get no old stock when you buy of us.

## AUGUSTA COUNTY.

Augusta was formed from Orange in 1738, and is one of the largest counties in the State, having over 1,000 square miles. Rockingham county bounds it on the north, the Blue Ridge mountains on the east, dividing it from Albemarle and Nelson, Rockbridge on the south and the Shenandoah Mountains on its western border, dividing it from Bath and Highland counties and the State of West Virginia. It is at the head of the Shenandoah Valley at its widest part. The North, South and Middle rivers, which form the Shenandoah, water and have their rise in this county. The lands (which have an average assessed value of \$3.04 per acre) are immensely rich and productive, and yield large crops of wheat, corn, oats, rye and the grasses. Augusta has long been the first county in the State in the production of wheat and the hay crop, raising over half a million bushels of wheat and 24,000 tons of hay. In the number of horses it ranks first; milch cows third, in butter-making and value of farm products second.

The numerous mountain ranges in the eastern and western parts of the county afford excellent pasturage for horses and cattle and stock of all kinds. Augusta is noted for the large number and superior excellence of its flouring mills, having a larger number and employing more capital than any other county in the State except Henrico, in which the extensive mills of Richmond

city are located. There are several distilleries with large capital engaged in the manufacture of very superior whiskey. The timbers found in the county are chestnut, walnut, oak, pine, ash and poplar. The minerals are iron, manganese, marble, slate, coal, kaolin, ochre and limestone. There are many valuable mineral springs, which have acquired celebrity because of their medicinal properties, that are visited annually by large numbers, residents of other States as well as of Virginia. The Cyclopean Towers and Madison Cave, near Mt. Solon, Weyer's Cave, sixteen miles northeast of Staunton and the Cave of Fountains, are among the greatest curiosities of the State.
